DETAILED ACTION

The after final Amendment filed October 22, 2003 has been received and carefully considered. The following information has been provided:

1. Claims 25, 30, 34 and 38 have been amended.
2. Claims 31, 35 and 39 have been cancelled.
3. Remarks drawn to rejections under U.S.C.112 first, second paragraph.

Claims 17-39 are pending.

The finality of the rejection is being withdrawn and the following new rejections are made of record.

Claim Objections

The objection to claim 24 has been overcome by amendment.

Claims 30, 34 and 38 are objected to under 37 CFR 1.75(c) as being in improper form because of multiple dependent base claims 17 and 18. See MPEP § 608.01(n). Accordingly, the claims 30, 34 and 38 have not been further treated on the merits.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 17-30, 32-34 and 36-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1623

Claim 17 recites, “ a product containing”. It is not clear what this means. The recitation “A synergistic antineoplastic composition” is suggested. The term “product” in this and all other occurrences should be changed to the term “composition”.

Claims 19 and 26 recite the mammal is human. This recitation does not further limit the composition of claims 17 and 25. The recitation refers to the latter part of claim 17, which is an intended use, and not given patentable weight. Claims 19 and 26 should be cancelled.

Claims that depend from base claims that are unclear are also rendered unclear.

Conclusion

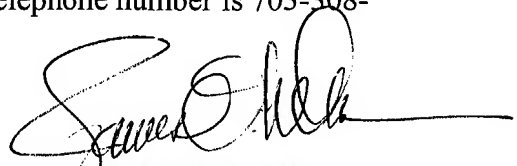

1. Claims 17-30, 32-34 and 36-38 are rejected.
